National Voter Survey

Report on results

From Thursday, October 26 through Friday, October 27, 2017 J. Wallin Opinion Research conducted survey of U.S. voters nationwide.

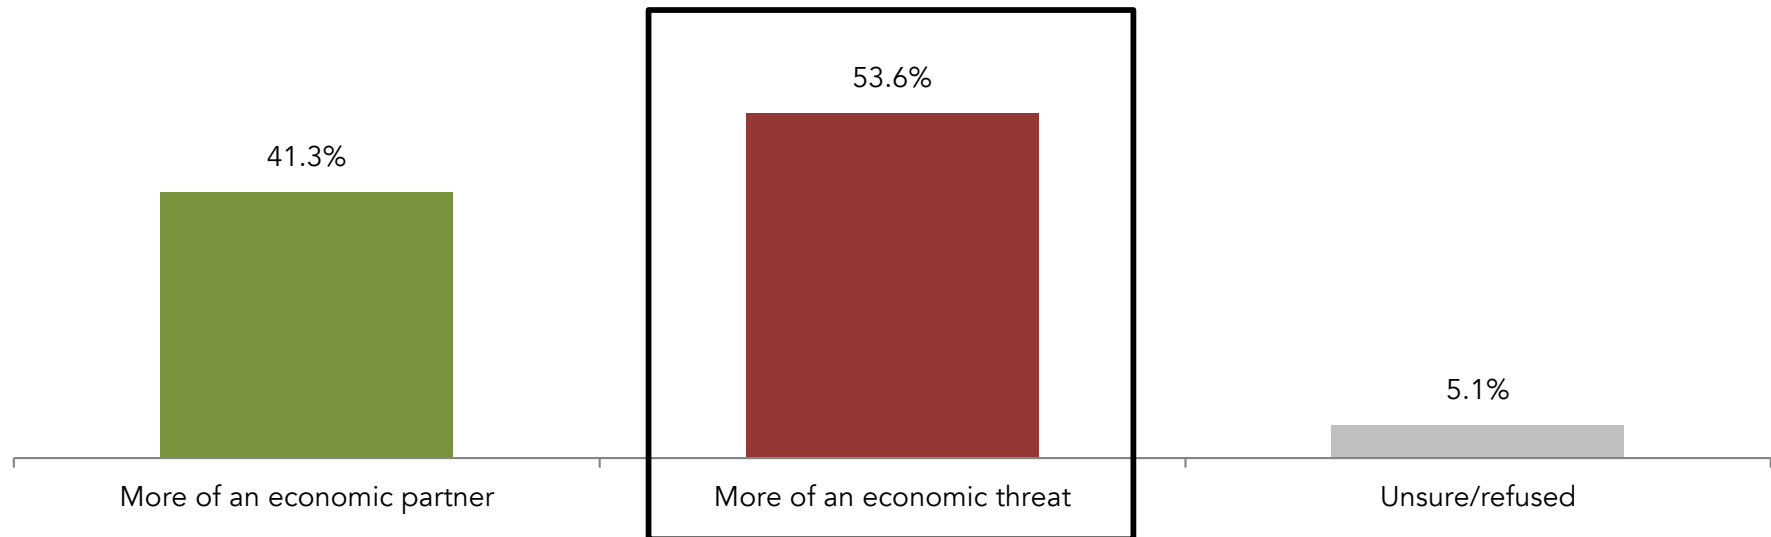

We interviewed 1,000 registered voters in the United States via the Survey Sampling International (SSI) opt-in registered voter panel which has been matched to a voter database.

J. Wallin Opinion Research performs research on behalf of business, government and political clients.

53.6% regard China as more of an economic threat

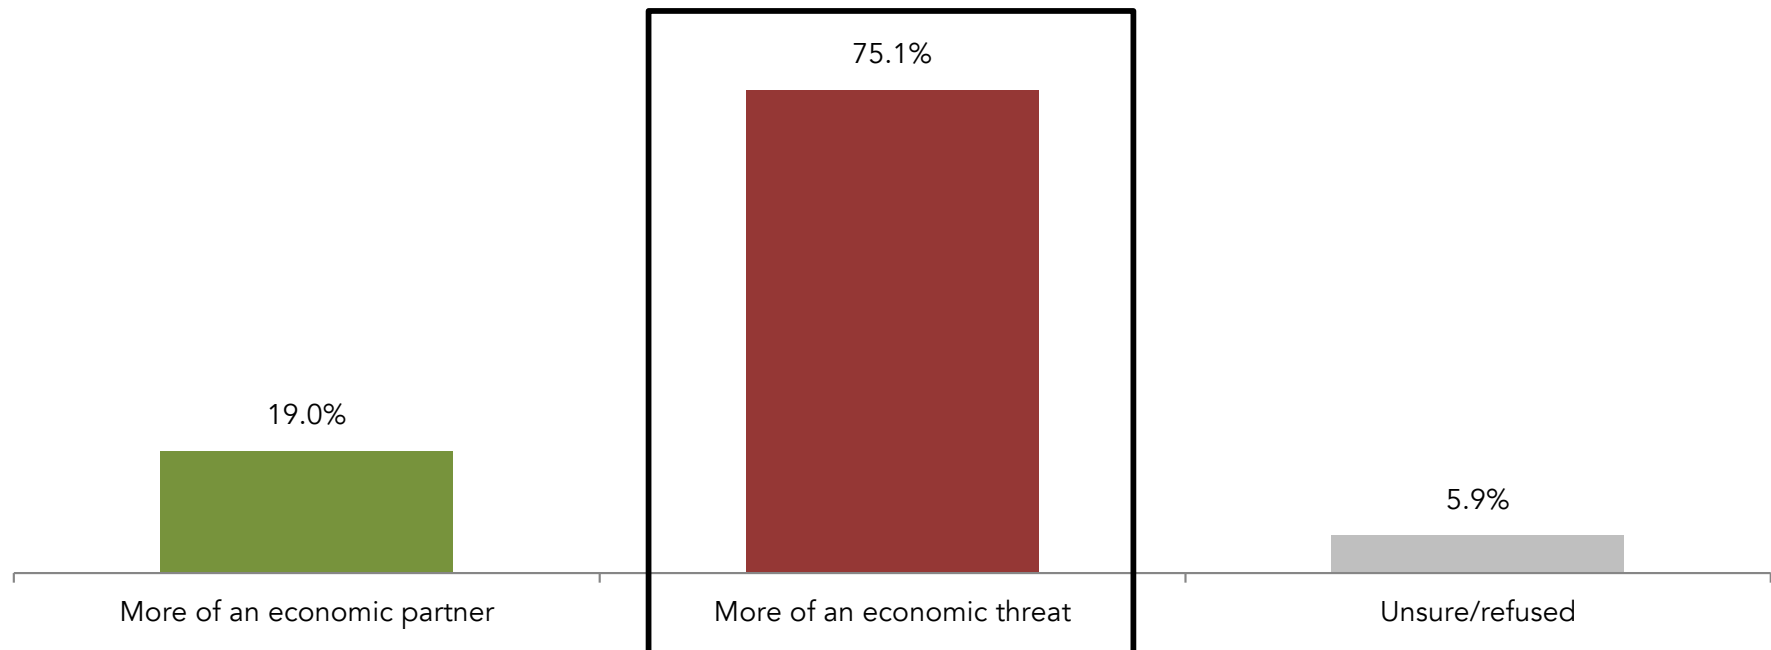

Than an economic partner to the United States

Question: Do you believe that China is more of an economic partner or an economic threat to the United States?

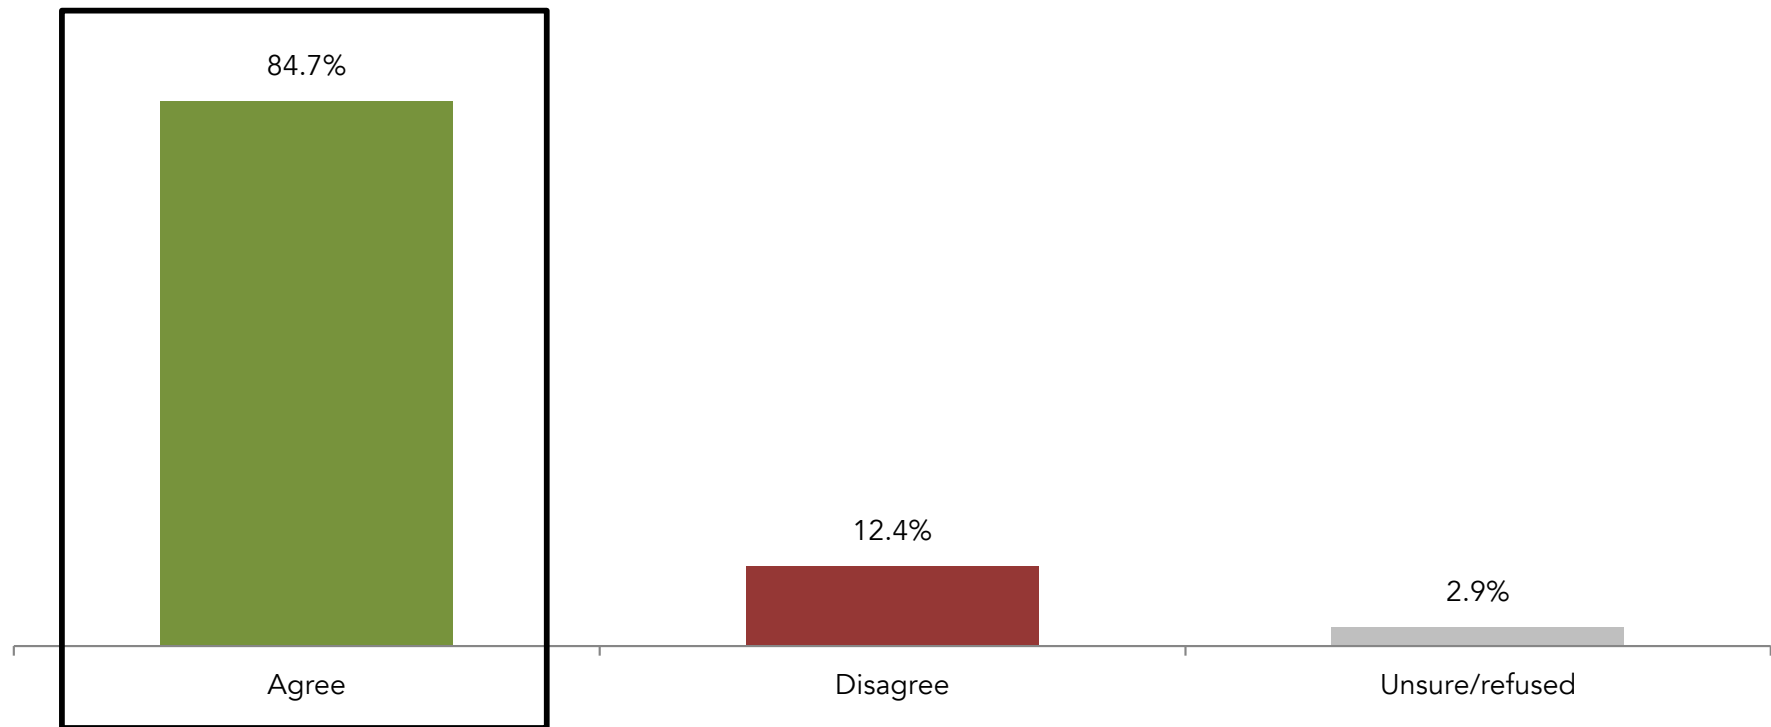

75.1% regard Russia as more of an economic threat Than an economic partner to the United States

Question: Do you believe that Russia is more of an economic partner or an economic threat to the United States?

84.7% agree that "It is appropriate for a foreign country to work to communicate to the American people the benefits of a good relationship between that country and the US"

Question: Please tell me if you agree or disagree with the following statement: "It is appropriate for a foreign country to work to communicate to the American people the benefits of a good relationship between that country and the United States?"

Thank you
